VALUE OF GLOBAL COUNTERFEIT

In 2007, the OECD estimated the value of counterfeit and pirated goods at US\$176 billion. In 2011 the ICC estimated that the value of the global counterfeit market was as high as US\$ 650 Billion and predicts it will reach USD\$ 1.7 Trillion in 2015. To put this into perspective, according to the Stockholm International Peace Research Institute, Global military Expenditure in 2013 was US\$ 1.7 Trillion.

INSTITUTIONS: Whether it is to measure it, create and agree on policies, to enforce it or to raise awareness about it, institutions play an important role in the fight against illicit trade.

GOVERNMENTS: Illicit trade costs governments billions of dollars in forgone revenues and is one of the main enablers of corruption. Find out what governments are doing to protect themselves against illicit trade on a legislative or technological level and what results they are achieving with the measures implemented.

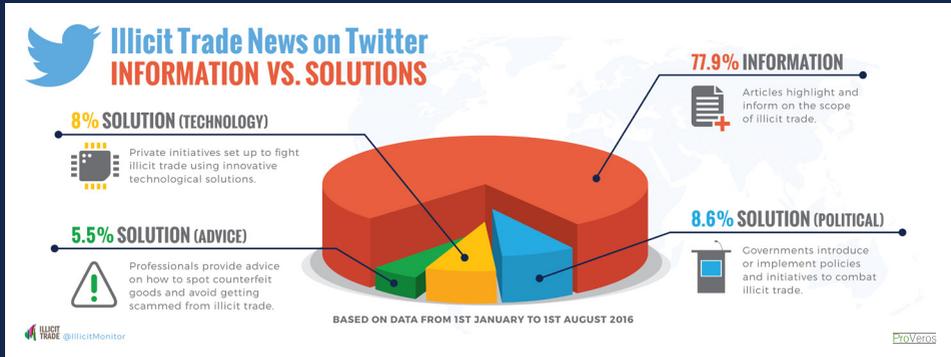

PRIVATE SECTOR: Discover what private initiatives exist today in the fight against illicitly traded and counterfeit products and how to join and support them.

SECURITY SOLUTION PROVIDERS (SSP): Tracing online verification and authentication of products are key to monitor supply chains and help secure the integrity of supply chains. Find out the wide array of SSPs offering numerous technologies, where they are being used and what results have been achieved with them.
